| Management/Inspection Fee | | |
| | The Management/Inspection Fee shall include administrative costs associated with managing public right-of-way permits, which includes, but is not limited to: | Application Management Fee (**A**) + [Inspections Fee (**B)**/Day x Duration of Permit(# Days)**C**] = |
| | **A** - The Management Fee is based on the Project Manager's review time (in hours) for the permit multiplied by the Project Manager rate (Hourly compensation + 70%) | |
| | **B -** The Inspection Fee is based on the average daily inspection time for a permit multiplied by the Inspector rate (hourly compensation + seventy percent (benefits and indirect costs)). Average daily inspection time shall be 1/2 hr/day o unless the scope of the permits warrants additional time. Any additional costs incurred for additional inspection time and/or outside inspections shall be included in this fee. | |
| | **C** - Duration of permit days shall be based on the number of weekdays within the duration of the permit (the total permit days multiplied by 5/7) | |
| | **Management and inspection fees are subject to change according to labor rates** | |
| Pavement Restoration Fee | | |
| | The Pavement Restoration fee shall include construction costs associated with the restoration of the pavement to minimize the impact to the useful service life of the roadway. The fee shall be applied to all permits that result in the disturbance of the pavement if the permittee chooses not to perform the required pavement restoration to the Village standards, with the following exceptions: | |
| | a. If the pavement cuts are within roadway segments rated at poor or below (Pavement Condition Index <50) according to the Village's Pavement Management System (Micropaver) database | |
| | b. If the pavement cuts are within roadways scheduled for major rehabilitation (mill and overlay or reconstruction) within one year of the permit issue date THEN the restoration fee shall be waived | |

| | License Type | Fee |
|---|---|---|
| **Public Works - Continued** | | |
| Asphalt Resurfacing | | |
| | 1 - The unit cost is based on the current year's mill and overlay unit cost based on the Village's Annual Paving Contract multiplied by a 15 percent adjustment factor (5% inflation , 10% contract administration) | The formula used to calculate this fee is as follows: Unit Cost ($Current Year's mill & overlay /SY)[1] x Area (SY)[2] = $ Fee[4] |
| | 2 - Area is calculated by the total width of each lane disturbed multiplied by the length of the disturbance plus five feet. The minimum length shall be twenty feet. | |
| Locate Potholes in Asphalt | | |
| | 3 - Area is calculated by the total width of each lane disturbed multiplied by the length of the disturbance plus two feet. The minimum length shall be five feet | Unit Cost ($Current Year's mill $ overlay/SY)[1] x Area (SY)[3] = $Fee[4] |
| | 4 - The pavement restoration fee is base on the Village's current year contract mill and overlay unit cost | |
| Other Fees | | |
| | Other Fees shall include additional costs associated with administrative work, which shall be calculated as follows: | |
| | Inspections outside regular inspection hours (2 hour min.) | Inspector rate/HR x 1.5 x Inspection time (HR) = $Fee |
| | Regular inspection hours are Mon. - Fri. 7:00 a.m. - 4:00 p.m. | |
| | **The overtime inspection fee is based on labor rates and is subject to change** | |
| *If the calculated restoration exceeds 20% of the total area of pavement bound by the limits of any multiple pavement cuts or if cuts are within 50 linear feet, then the restoration area shall include the total area* | | |
