## NEW YOUNG PROFESSIONALS GROUP FOR UNDER 40 TAKES OFF

The Greenwood Village Chamber of Commerce is proud to partner with The Greenwood Village Young Professionals (GVYP), a new organization of business professionals under 40 that focuses on professional growth, corporate responsibility, and community service.

As a member of the GVYP, members will have access to hear accomplished, successful business leaders of today speak on their experiences and business success and accomplishments. Through an established business leader network, young professionals can access these leaders for guidance and mentorship. Members will have opportunities to attend political debates and meet public officials and learn more about the political landscape of Colorado. Members will also visit with manufacturing plants and other important facilities to see firsthand how the gears and cogs of different operations fit together.

Another benefit of the GVYP is that members will have various opportunities to give back to the community. They will get to work side by side with other members on projects to help non-profit associations, fix up a home, mentor high school students and volunteer for various events such as charities and fundraisers.

Professional development is also an important benefit of membership to the GVYP including getting to know your peers. The goal of the GVYP is not to fill your Rolodex with contacts but instead build lifelong relationships. Members of the GVYP are business leaders of tomorrow and becoming a member can give you a chance to build some lifelong friendships with other future leaders who share your same goals and interests.

If you are interested in becoming a part of the Greenwood Village Young Professionals organization to learn how you can grow and benefit from this unique membership experience, contact Membership Committee Chair Krystyn Herbers at [krystynherbers@gmail.com](mailto:krystynherbers@gmail.com). *GV*
