<u>Management/Inspection Fee</u>	Management Fee - Fee based on permit review by the Right-of-Way Coordinator and administrative management of the ROW Permit, including permit issuance, tracking, and acceptance. Minimum charge shall be two (2) hours.	Management Fee x Permit Review Time	
	Inspection Fee - Fee shall be based on the number of working days and the estimated time per day required for inspection of the permit scope of work. The minimum inspection time shall be five hours, based on 1 hour for a field preconstruction meeting, 1 hour of inspection per day during construction (with a minimum of three days of duration), and 1 hour for final acceptance inspection.	Inspection Fee x Hours per Day x Working Days of Permit	
	The management and inspection fee shall be calculated as follows: (Mgmt Fee x Permit Review Time) + (Inspection Fee x Hrs per Day x Working Days of Permit) = Fee		
	Management and inspection fees are subject to change according to labor rates as referenced in the Greenwood Village Construction Standards Manual		
	The management and inspection rates are based on the average base salary of those positions for the current year plus 70% to cover benefits and indirect costs. Inspection fees outside of regular business hours (7am to 4pm Monday through Friday) shall be charged at 1.5 times the regular inspection rate with a daily two hour minimum.		
<u>Pavement Restoration Fee</u>	Pavement restoration fee is based on current year's contract unit rates. The minimum pavement restoration fee shall be calculated at 12' x 20'.	(\$Current Year's contract rate x 15%, X5% inflation X 10% contract administration)	
	Seal coat restoration fee is based on current year's contract unit rates. The minimum pavement restoration fee shall be calculated at 12' x 20'.	(\$Current Year's contract rate x 15%, X5% inflation X 10% contract administration)	
	Manhole/valve and striping restoration fees are based on current year's contract unit rates.	(\$Current Year's contract rate x 15%, X5% inflation X 10% contract administration)	
<u>Asphalt Resurfacing</u>			
	1 - The unit cost is based on the current year's mill and overlay unit cost based on the Village's Annual Paving Contract multiplied by a 15 percent adjustment factor (5% inflation, 10% contract administration)	The formula used to calculate this fee is as follows: Unit Cost (\$Current Year's mill & overlay /SY) ¹ x Area (SY) ² = \$ Fee ⁴	
	2 - Area is calculated by the total width of each lane disturbed multiplied by the length of the disturbance plus five feet. The minimum length shall be twenty feet.		
<u>Locate Potholes in Asphalt</u>			
	3 - Area is calculated by the total width of each lane disturbed multiplied by the length of the disturbance plus two feet. The minimum length shall be five feet	Unit Cost (\$Current Year's mill \$ overlay/SY) ¹ x Area (SY) ³ = \$Fee ⁴	
	4 - The pavement restoration fee is base on the Village's current year contract mill and overlay unit cost		
	The overtime inspection fee is based on labor rates and is subject to change		
	<i>If the calculated restoration exceeds 20% of the total area of pavement bound by the limits of any multiple pavement cuts or if cuts are within 50 linear feet, then the restoration area shall include the total area</i>
